

CAR SEAT EMERGENCY STICKERS

Options: 1. Fill in the PDF, or 2. Print and write in.

Print out onto label/adhesive paper, trim and adhere to your child's car seat.

For safety reasons, you may want to place a sticker on both sides of the car seat to ensure emergency personnel can see the stickers.

For identity theft reasons, you may not want to post the sticker up high where anyone looking in the window can see your information.
